Measuring your catch

A clear digital photograph of the fish, correctly placed on the measure, is critical for your fish to be entered. It is your responsibility to ensure you provide an image that we can use to validate your entry.

Place your fish on an official measure as shown below, sit your angler number on the fish and take one or more digital photographs that clearly shows the whole fish, placed side-on, on the measure with either the upper or lower jaw touching the edge of the L shaped plastic end of the measure.

Ensure the V of the tail is clearly visible and as close to the middle of the cm increments on the upper part of the measure as possible. Take the photo from directly above the fish looking down on it rather than from the front or side.

Please note that the Surtees Tournaments Committee reserve the right to disqualify any catch at their sole and absolute discretion for any reason whatsoever including but not limited to suspected measure tampering and false submissions.

How is length determined

The fish will be measured from the innermost point of the V as shown below:

CHECKLIST

1. Make sure the photo is of sufficient quality and suitable to enable the length to be verified.
2. The photo submitted must be in landscape format.
3. Take several photos just in case. Shadows can cause problems if the fish is placed on part sun/part shadow.
4. The tip of either the upper or lower jaw must touch the edge of the L shaped plastic end of the measure. It is permissible to place a hand on or have someone hold the fish on the measure to settle it while a photo is taken, provided this does not obscure the fish or the angler number significantly or prevent The WSFC weigh master from being able to validate your catch.
5. The V of the tail should be as close to the middle of the cm increments on the upper part of the measure as possible. The measure should be placed on a flat surface.
6. The jaw of the fish must not be distorted in an attempt to exaggerate the length.
7. Fish must be measured fresh and must not be significantly cut in a manner that alters the length. If you are going to keep your catch we strongly recommend you DO NOT gut or gill your catch before taking the photo as it will render the fish ineligible for the competition. Photos with the fish clean of any blood are preferred and images with excessive blood may be declined.

Submitting your catch

SUBMITTING YOUR CATCH

You will need to log in to www.surtees.fishingcomp.co.nz

Enter your email address that was nominated at the time of entry and the password that was issued on 01/04/2020 to your email. Click on "enter catch" and follow instructions.

Once your catch has been approved by the Surtees Boats administration team you will receive an email to confirm the entry of your catch.

IF YOU DO NOT HAVE DATA ON YOUR PHONE TO UPLOAD YOUR CATCH, wireless internet will be available at the Lusty & Blundell caravan located at the Whakatane Boat Ramp. The caravan will be open at 2:30pm each day if you require assistance with entering your catch. If you are coming through earlier please call through to Coastguard Channel 18.

All catches must be uploaded or be in the queue at the caravan by:

Saturday 4th April 5:00pm

Sunday 5th April 2:00pm

Please be patient and respect the officials during this time.

LEGASEA

We are proud partners of LegaSea and will also support them again this year with all proceeds made from the Competition.

We are very happy to be part of the catch & release tournaments to make sure we look after our fisheries and the ocean without giving up what we love doing - fishing!

Thanks to everyone being responsible, just keep what you need and it is still possible to get the big prizes.

LegaSea is a not for profit organisation established by the New Zealand Sport Fishing Council in 2012. Our core roles are to elevate public awareness of the issues affecting our marine environment and to inspire public support to effect positive change.

One of LegaSea's primary missions is to restore New Zealand's coastal fisheries.
